

Germany Preparing Offer To The Allies

Government Is Ready to Negotiate, Correspondent Reports.

(By The Associated Press)
LONDON, April 22.—The Berlin correspondent of the Central News says he learns on good authority that the German government is preparing a positive offer to the Allies. The government, he adds, will declare its readiness to negotiate and discuss reparations.

Race For The Five Autos and Cash Booming Rapidly

Things are booming in the Register-Bee's \$10,000 "Everybody Wins" auto and cash campaign as never before. Votes continue to come in by the thousands and tens of thousands as the vote standings to day will show. Turn to them now and see the progress made by the many active candidates who are competing for the five free automobiles and the extra awards of \$100.00 in gold.

Very few days yet remain of the First Period big votes but these remaining days will see more activity displayed than at any other time since the campaign began.

April 23rd, at 10 p. m. is the final hour of the big votes. All subscriptions, to count on the big vote scheduled for this evening, must be in the hands of the headquarters by that time or must be mailed in envelopes showing a postmark not later than that hour.

Everyone is now going after the subscriptions and subscriptions mean votes. Votes alone will win the \$41,145.00 Lincoln, one of the four other fine cars and the extra \$100.00 in gold as well.

As is to be expected in affairs of this kind, especially when rivalry for the magnificent reward is becoming more keen, wild stories are being circulated by some who hope to discourage competitors and get them out of the race.

Property taxes accounted for about three fourths of the total revenue of the city government in 1922. The city government's income from this source being \$117,733.00. Earnings of public service enterprises operated by the city represented 1 per cent of the total revenue for 1922, and business and non-business licenses, 13.4 per cent.

Of the per capita tax, the city government's share was \$24.19. The city government's share of the general department's expense of \$24.19 was \$24.19. The city government's share of the general department's expense of \$24.19 was \$24.19.

Yet with all the activity that is being shown, new candidates can enter now and with comparatively little effort get enough votes to lead the field. Some districts are not well represented and there are plenty of opportunities for all.

This is the important week. Just a few days and the big votes will be over, never again to be recalled. This is your last chance to pile up such a big lead for the \$41,145.00 Lincoln that no one can ever overtake you.

Get busy these last few important days.

Children's Day At Calvary Church

An impressive service was held at Calvary Methodist church Sunday at 11 a. m. The service was a feature of the church's celebration of Children's Day. The pastor, Rev. Joseph T. Allen, preached a short sermon, setting forth the relation that exists between God and his child as taught by the Master. He read as a text: "When I was a child, I spoke as a child, I understood as a child, I thought as a child." The subject by the use of several simple illustrations that children could easily understand. At the close of the sermon the class, with their parents, Sunday school teachers and officers of the church gathered around the altar and the children were baptized and received into the church on profession of faith.

The service was the culmination of several weeks of instruction by the pastor. The children exhibited a familiarity with the words of Baptism and church membership that many an adult sadly lacks.

Contract Breaker Is Assessed \$200

J. H. Grogan, a Patrick county tobacco grower whose case was taken to the Patrick county court on the 19th inst. by the county clerk, was assessed \$200 for breaking his contract with the "Good" has been pressed to a conclusion. The court's decree which is entered by consent of the parties, included liquidated damages \$20, attorney fees \$100 and costs \$80. Grogan in addition to the tobacco contract, was assessed for the completion of his contract which will run for four more years.

Old Bag Stuffed With Bonds Lands Bank Clerk In Tombs

NEW YORK, April 21.—Detectives of an old leather bag containing \$100,000 worth of Liberty bonds landed George F. Mahnken in Tombs prison today.

Mahnken was a clerk at the Irving National bank. One day last October, according to his alleged confession, he wrapped a bundle of liberty bonds in an old newspaper, tucked them under his arm and left the bank. The next morning he was at his usual place at the bank counter, and every morning until today, when he was arrested.

There were a few things he wanted. He subtracted from the bundle enough bonds to buy a radio outfit and to lend his friends a few dollars. The rest, according to the alleged confession, he packed in the old bag and deposited with a relative.

Detectives found the bag and the bonds, almost intact, at the home of the relative, who said he hadn't known what the bag contained. It had been "knocked around the place for months."

Mahnken went to the Tombs because he couldn't furnish \$10,000 bail.

She Danced 90 Hours!

Those Cleveland girls are bound they'll keep the endurance dancing championship in their town. After it left there temporarily June Curry, waitress, shown above, brought it back by tripping 90 hours and 10 minutes without stopping.

Oil Lease Cause Of New War Cloud

France and Turkey at Odds Over Chester Concession

Paris Sends General Weygand to Syria.

(By The Associated Press)
PARIS, April 22.—The sending of General Weygand, of Syria, coupled with the French government's protest against the French concession to the Chester syndicate is commented on today by the government and opposition newspaper as the sign of serious difficulties between France and Turkey.

The fact that Turkey has voted 25,000,000 Turkish pounds to support her army together with the mobilization of Turkish troops on the Syrian front is cited to show that Turkey is willing to meet the issues raised by France such as the Chester concession.

Up-to-date Turkey has not replied to France's protest to the concession. It is admitted that the sending of Gen. Weygand to Syria to replace Gen. Gouraud is one means of intimating to the Turks that they cannot menace the Syrian frontier without cause.

Common Labor Wages Increase

(By The Associated Press)
CHICAGO, April 22.—Wages in Chicago increased a half cent an hour for all grades of common labor employed in the northwestern region of the Pennsylvania railway were announced last night after negotiations between representatives of the employees and the roads. The increase will add about \$300,000 to the payroll and affect about 4,000 men including all track laborers, maintenance men, common labor in shops and engine houses and assigned labor about shops.

The northwestern region includes most of Illinois, Ohio, Indiana and Michigan.

Similar negotiations are being carried on in other regions of the Pennsylvania and St. Louis, Pittsburgh and Philadelphia and if similar action is taken more than 25,000 other employees will benefit by the raise.

The advance was made retroactive to April 16 for all employees on the payroll April 23 after which date it will affect all employees entering the service.

Three Have Close Call In Wreck

Three persons, two boys and a young woman, had narrow escapes yesterday shortly after noon when the Buick touring car in which they were riding rolled over a steep embankment at the north end of the Schofield bridge. The automobile, said to be owned by J. J. O'Brien, turned turtle but fortunately the occupants, whose names were not learned, escaped serious injury.

Several other minor automobile accidents were reported to the course yesterday on various roads. A man is said to have been seriously injured in an accident on the Houston road, but particulars to this is also lacking.

Sunday was an ideal day for motorizing and the balmy weather brought out motorists in large numbers, this fact being responsible for crashes here and there.

Japan Denies Troop Landing

(By The Associated Press)
TOKYO, April 22.—The war office today denied the reported landing of Japanese troops at Alexandropol on the Siberian mainland.

Not a single Japanese soldier is in Siberia. It was said that a small number of Japanese troops were in the vicinity of the city of Khabarovsk, but they were not landed.

The report that a Japanese expedition had landed at Alexandropol was added through the decision of the Japanese military authorities to relieve the garrison in North Sakhalin.

Japan Denies Troop Landing

(By The Associated Press)
TOKYO, April 22.—The war office today denied the reported landing of Japanese troops at Alexandropol on the Siberian mainland.

Not a single Japanese soldier is in Siberia. It was said that a small number of Japanese troops were in the vicinity of the city of Khabarovsk, but they were not landed.

Special Meeting Of Council To Act On Budget

A called meeting of the council will be held at noon on Wednesday for the purpose of taking action on the budget for the next fiscal year and also to take action on a license tax assessing bus operators with levy of 2150 for each vehicle. It is understood that the bus line owners are asking for the tax as a measure of protection. Many of these lines have been started—linking up South Boston, Chatham, Lexington, Marlborough, and Stuart with Danville, the patronage given being distinctly encouraging and giving a new opportunity to people living at those and intermediate points to come to Danville.

The complaint has been made that the established bus lines, which operate through the winter find opposition during a few months in the summer and sometimes so-called bus lines have come into operation on Saturdays these cars starting a short time before the other all-the-year-round busses but which, as asserted, do not give sustained service.

Included in the budget which will come up for action on Wednesday will be the appropriations which are being made to cover part of the cost of Westmoreland Court and Astor street which, it is reported, have been misused in some quarters. It has been currently reported that the city is making outright appropriations to pave these streets leaving other streets on which people and tax payers have resided for many years without improvement.

Council records, however, show that the proposition made to the city by H. C. Ficklen is so favorable that the members of the council felt that they could ill afford to refuse the proposal under the terms of which the city will secure some \$37,000 worth of street improvements at an actual cost to the city of \$18,000. The Astor street project calls for an expenditure of \$5,575.25 of which Mr. Ficklen pays two-thirds and the city one-third. The Westmoreland court paving will cost \$15,275.25 of which Mr. Ficklen will pay two-thirds, \$10,183.50, the city the remaining one-third, \$5,091.75. The water connections for Westmoreland court will cost \$1,880, gas \$1,645 and the sewer \$1,880, which money be advanced by Mr. Ficklen to be repaid by the city within three years or when nine houses shall have been built.

The Marshall avenue improvement also included in the budget Messrs. Patton, Temple and Williamson, the developers, paying two-thirds of the total cost of paving the new street which will cost \$18,000 and the city the remaining one-third.

In this connection it is timely to point out that under the city's new plan, persons desiring sidewalk improvements on the "fifty-fifty" basis should now make their requests of the city in order that such expenditures may be included in the budget. The city is disposed to do this work, paying half the cost and the property owners the remaining half.

His Own Passport Refused, Diplomat To Ellis Isle

NEW YORK, April 22.—Traveling on a diplomatic passport issued and countersigned by himself, Colonel Jovan Plamenetz, former Premier of Montenegro, arrived here yesterday on the Italian Line steamer Colonna Verdi, insisting that he still held that passport. Coming from a country which has been absorbed by Yugoslavia, customs officials would not recognize his Montenegrin status and he was ordered to Ellis Island. Michael Tomich and Alexander Jakich, his aides, went along with him.

Luigi Crispiello, the Montenegrin representative here, who met Colonel Plamenetz down the bay on a cutter, tried to accomplish the entry of the former Premier. He was informed, however, that he could not land.

"Is this Democratic America?" he asked the German.

Last Fall Colonel Plamenetz, with the aid of twenty armed conscripts seized the Montenegrin consulate in Italy and proclaimed himself Premier. A post which he held in 1919, succeeding Popovich. Having installed himself in the consulate, he issued a statement charging that the regency of Queen Milena was a puppet government and that he had betrayed Montenegro by negotiations with Belgrade.

Crispiello blamed Serbian interests at Washington for the detention of Colonel Plamenetz, who, he said, had come to America seeking a refuge for a few months.

Anti-Jewish Pogrom Breaks Out In Bucharest

(By The Associated Press)
BUCHAREST, April 22.—Anti-Jewish excesses at the university were continued yesterday. Seventy-four Jewish students were wounded, some of them fatally. Among the wounded was a Christian who fought with the Jewish students.

The pogrom spread to the Jewish business quarter where a number of Jewish passersby were set on by a Roumanian student.

Bishop Gailor Wins Distinction

(By The Associated Press)
NEW YORK, April 22.—The insignia of the Knight of the Holy Sepulchre for Bishop Thomas Francis Gailor of Memphis, has been brought here from Jerusalem. Bishop H. J. Darrington of Harrisburg, who arrived yesterday on the New American.

The order was conferred by the patriarch of Jerusalem. The insignia of the cross on which Christ was crucified.

Three Have Close Call In Wreck

Dry Director In Ill. Is Suspended

Garden Slides Are Shown At Majestic

The attendance at the Majestic theatre on Sunday evening when a semi-religious service was held at which one hundred slides were shown of famous American gardens, was good considering the lure of a fine Spring day. The parterre was well filled and also part of the balcony. The meeting which was held under the auspices of the Danville Garden Club with a view to swelling the flower planting fund of the Danville Garden Club, resulted in the collection of \$50 from which the expenses incident to the shipping of the slides must be deducted.

Tonight the slides will be shown to the patients at Hilltop who have expressed a desire to see them and Mrs. W. C. Overbey will explain the slides as they are shown.

At the Majestic, Superintendent of Schools, W. C. Griggs, explained the various gardens shown creditable work being done in reading the typescript in view of the fact that the slides arrived so late as to prevent any rehearsal. A musical programme interspersed the slides a male quartette contributing greatly to the pleasure of the afternoon. Rev. J. M. Shelburne bringing the meeting to a close with a reading of Richard Rolle's beautiful poem, "Indirection."

Dr. Shelburne opened the service yesterday, after which the Doxology was sung. Manley B. Ramos contributed a vocal selection, "Thank God for a Garden." Mrs. Julia Brewer Thomas accompanied him. The programme also included a scriptural reading appropriate to the garden thought and Messrs. Ramos, Will Parker, John Eanes and Ashby Rains sang, accompanied by Mrs. R. R. Murray. The pictures were shown in two groups of fifty each, interspersed with musical numbers, a second selection being given by the male quartette.

The Danville Garden Club today expressed earnest thanks to the proprietor of the theatre for making it available for the occasion and all the persons who contributed to the programme.

High School Boy At 18 Preaches and Makes Impression

Ralph Leonard Haga, a well-known Danville high school boy of the senior class, took advantage of an opportunity offered him to preach at Shelton-Memorial church yesterday. Haga, 18 years of age, is preparing himself prior to obtaining his local preachers' license which he hopes to secure at the next Methodist District Conference. Haga distinguished himself no little yesterday by the knowledge he displayed, and the manner in which he conducted himself in the pulpit. Being so young and considering the fact that that was the second sermon he had ever preached the congregation was somewhat astonished; as his sermon was delivered in a straightforward manner, and that some of the requirements of the license require years of preaching to obtain. His sermon was scholarly, and the points were striking. His sermon was taken from the 24th chapter of Proverbs, 30-32 verses, and entitled "The Wasted Life."

Ball Park At Chicago Damaged By An Explosion

(By The Associated Press)
CHICAGO, April 22.—Three bombs were exploded last night at the Chicago American League baseball park, scattering light in the grandstand and the windows in nearby houses. Thomas Healy, night watchman sitting in the park office, was thrown from his chair by the explosion but was not injured. The bombs were attached to a redoubtable plumbing in the remodelled park was damaged last week.

PHASANT EGGS FROM ENGLAND WILL BE HATCHED IN AMERICA

LONDON, April 22.—Experiments made by a large firm of game breeders have shown that pheasants' eggs can be sent to America and satisfactorily hatched out.

The firm has therefore made arrangements to ship a trainload of pheasants' eggs by their vessels when the laying season starts next month.

"The pheasant is not native to America," said the manager of this firm, "and socks have constantly to be renewed and the blood stream of the birds must be kept flowing. We have been sending live birds, but now we know that eggs can be sent equally as well. They will be shipped the day they are laid and should be under a hen pheasant or in an incubator in America about ten days later."

SCIENTISTS TO STAGE EARTHQUAKE TO MEASURE SHOCKS

PHILADELPHIA, April 22.—A miniature earthquake is to be created by geologists some time this year by planting tons of high explosives a mile or more down in the earth in an old mine and touching them off by means of delicate instruments now being perfected, with all the accurate knowledge as to time and distance of explosion will yield, it is believed, accurate data on which to calculate in the future the speed of earth tremors and the methods of their origin.

This plan was laid off in a few words today at the meeting of the American Philosophical Society by Dr. Henry S. Washington of the Carnegie Institution, Washington.

Washington spoke after Dr. Charles Y. Moore, Professor of Geophysics of the University of Georgia at Washington University, had described the way in which the explosives left over from the war were being utilized in scientific experiments.

The method of measuring the effects of earthquakes and charting the position of the point where the earthquake occurs has been a very unsatisfactory one. Dr. Washington explained, because the line of cleavage usually is long that it is not possible to determine distances accurately. Calculations based on seismographic records are only approximate, because the speed of the earth wave, corresponding to the wave length of sound in radio, cannot be definitely determined. But when the blast takes place, time and distance will be so calculated that there will be no chance for error.

The experiment will probably take place as soon as instruments now being built are ready to record the shock. The average earthquake in weight and volume varies greatly in its effects from the shock that would take place after the explosion of a quantity of trinitrotoluol, for instance. The explosive would produce a sharper vibration, and the present methods would not reproduce it accurately.

When the instruments are ready, twenty tons or more of high explosive will be buried deep in an old mine and waited in so that their force will not be expended in the shock and the shock will be measured under such conditions as to possess the rigidity of a solid body, otherwise it would be torn to pieces by the terrific pull on it of the moon and the sun.

FEDERAL LAW IS PENAL IN NATURE

(By The Associated Press)
LOUISVILLE, April 21.— Sections 21 and 22 of the Federal Prohibition Law are penal in their nature and cannot be enforced by proceedings in Kentucky State Courts according to

The opinion was rendered in the case of the federal government against Al Stebler, former saloon-keeper and operator of a soft drink stand here. The case was filed in the state court to abate an alleged nuisance, which counsel for the government claimed. The case was maintained by Stebler.

15 POUND GAIN BY MRS. POTTER TAKING TANLAC

**Declares Famous Medicine
Ended Rheumatism, Fol-
lowing Flu, and Restored
Perfect Health.**

—o—

"Although three years have passed since I took Tanlac, its wonderful benefits have remained with me to this good day," is the enthusiastic statement made recently by Mrs. Mary Potter, of Selma, Va.

"Three years ago, influenza left me

in a weak, run-down condition and suffering terribly from stomach trouble, rheumatism, nervousness, sleeplessness and headaches. The rheumatism was all over my body, so bad in my right leg I couldn't move without great pain and for a long time I was unable to do my housework.

"Well, I never dreamed there was such a grand medicine as this. Soon

after starting on it. I was eating and sleeping fine and when I finished the treatment I had gained fifteen pounds and didn't have a sign of my former troubles. Why, even today, I still have the splendid appetite, strength and weight Taniaic brought me and the longest day of housework doesn't tire me. Taniaic was a great thing for my husband, too."

Charges Conspiracy To Depress Prices Of Cotton In U. S.

President of United States Cotton Association Makes Startling Charge in Complaining of Government Action.

(By The Associated Press)
ST. MATTHEWS, S. C., April 23.—The action of government officials in making public the average report of 18 economists to the Department of Agriculture in which planting intentions of farmers were forecast was denounced as a measure in behalf of the cotton growers, who face heavy losses through selling cotton they did not own, in a statement today by J. K. Wannamaker, president of the United States Cotton Association.

Protests against the report Mr. Wannamaker declared had come to him by wire from all sections of the country. "These cotton growers must be mind readers," Mr. Wannamaker said, "because they profess to tell us what the farmers intend to plant and in addition they must be readers of the future because they tell us what nature is scheduled to do in connection with the crops in coming months."

Making public such a forecast at this time he said, is unprecedented in this country for 50 years.

He charged that European influences are working to depress cotton prices. The statement has been made by a high textile official in Europe that it is necessary for Europe to secure cheap American cotton in order that European garments may pay their enormous debt to the United States and that individuals of Europe may pay their obligations to the American individuals and corporations. He declared they would not pay a price for cotton, "that would enable us of the South to take our children and women out of the field into the homes and schools."

Mr. and Mrs. Harvey White have returned from their honeymoon and are now visiting at the home of Mr. White's parents on Gray street tent, nearby.

PRINT THIS ABOUT Joint-Ease Says Druggist

"Joint-Ease is selling like hot cakes in my store because it is a wonderful and speedy remedy for all joint troubles."

"But why not impress on tens of thousands of suffering people some of the charges that dozens of my customers tell me almost daily."

"Some say that it knocks out lumbago over night—Others assert that for chest colds and sore throat it has no equal, while many insist that it is nothing they ever tried that is so efficient for neuritis, neuritis and even colds and nasal catarrh."

Answering the above letter, we, the makers of Joint-Ease, know that what this thriving New Jersey druggist says is true, but we still maintain that Joint-Ease is prepared for stiff, inflamed, painful, swollen joints, whether in ankle, knee, hip, elbow, shoulder, fingers or spine.

You'll like to use Joint-Ease, for which one minute's rubbing, it soaks in through the flesh direct to the ailing bones and ligaments—that's why it succeeds—when Joint-Ease gets in, you get out—And without any waste of time all swelling and congestion disappears.—adv.

COTTON MARKET

(By The Associated Press)
NEW YORK, April 23.—The cotton market was active and rather excited at today's opening first prices being 15 to 55 points higher.

1923 CAPTAIN KIDDS

BY JACK O'DONNELL
Author of "Driving the Bankers Into the Salaries" and Other Stories on Prohibition Enforcement.

RUM ROW, 12-MILE LIMIT, ATLANTIC OCEAN, off New York, April 23.—Captain Kidd, 1923, is fat, jolly and 49, without color or cut-bush, mustache or moustache.

I saw half a dozen of him when Palmer Canfield, federal prohibition director of New York, made a semi-official call on the rum-runners of the Jersey coast on the U. S. revenue cutter Manhattan. He is a nondescript person in the same way that a coal-passer on a river barge is nondescript. He looks just like any one of a thousand fishermen one meets in the ports of the world.

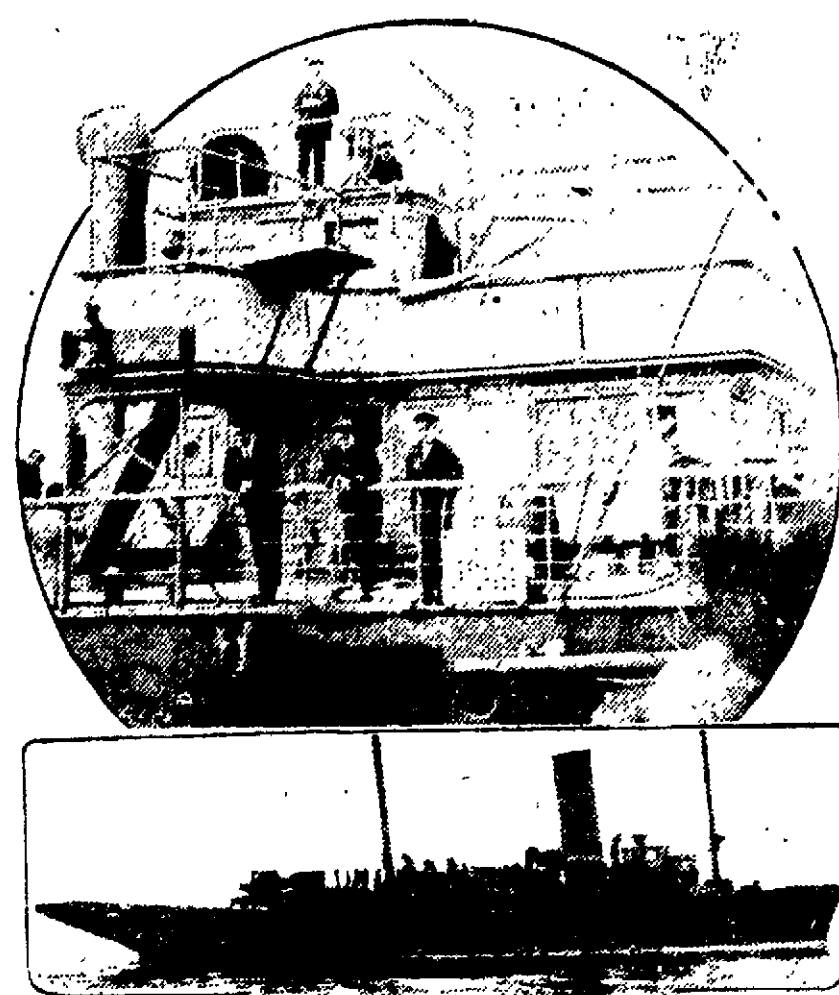

The color and glamour of the smugglers and pirates of the seventeenth century are missing. The average American boy would have went with disappointment had he seen aboard the revenue cutter with Director Canfield when the rum fleet was visited. The ones we saw wore dirty clothes, black sweaters and caps such as stevedores sport when times are tough.

And their followers! They, too, are a sorry looking crew with stolid, tired faces, and as colorless as distilled water. There is nothing of the washbuckler about the enforcers of today. Captain Kidd would scorn to associate the sea with them, and no doubt, would look stupidly at anyone who should mention the name of that picturesque Englishman.

Those of us who had hoped to see modern Captain Kidds, red or black berths, about their throats, cutlasses in hand, strutting up and down foot-littered decks, got the surprise of our lives. The rum ships—battered and bruised old hulks for the most part—have captains who stand at the rail, staring stupidly or with disgust at the inquisitive visitor.

Drab is the word that describes their best—describes not only the ships themselves, but also the men who sail them. There are any skulls and crossbones on these vessels they are on the bottles of booze in their holds. If there is any romance in the rum-smuggling business it must be in the gold they receive from the bootleggers who come to the ship to buy cases of Scotch, whisky and other liquors.

One "Captain Kidd" we saw and

THE BIGGEST OF THE RUM FLEET VISITED BY PROHIBITION DIRECTOR CANFIELD, AND ABOVE THE CAPTAIN AND TWO OF THE OTHER OFFICERS DOING SOME LONG DISTANCE CHATting WITH THE DRY SLEUTHS.

talked to was a funeral-looking Englishman who "Sird" the captain of the revenue cutter and used parlor English. He didn't seem to fit in with the rest, and he was ill at ease while exchanging greetings with our own skipper. He was on a ship which at one time belonged to a millionaire of New York City. The ship's sides are battered and scarred from the many small craft which have come alongside her since she entered the rum-running business, and her decorations cannot be described by the wellknown phrase "shipshape."

The trip to the rum fleet served one purpose even if it did disillusion those aboard the cutter about modern piracy. It convinced prohibition enforcement officials that a rum fleet actually exists and that ships flying the British flag are the main carriers of hooch to American shores.

Director Canfield saw and talked with the captains of rum runners, was invited to board the largest and most notorious rum runner in the world but tactfully declined the invitation.

Good Morning Judge!

The lengthy docket in the police court this morning was comprised mostly of Mapp act violations and drunk, with a few cases of trivial nature mixed in. About twenty girls from Averett College attended the session as guests of the court. The girls were studying in a court and they were brought in a body and appeared very much amused at the trial of various cases.

The following cases were disposed of this morning:

T. C. Donley fined \$31 and given thirty days with the sentence suspended on a charge of violating the Mapp act. He was caught with little more than half a gallon. H. A. Walker, who was arrested with a bottle of liquor in his pocket, as dealt with in a similar fashion.

A fine of eleven dollars and costs was imposed on Joseph H. Hanzel for creating a disturbance by the use of threats and profane language. Hanzel was also placed under a recognizance bond of \$100 for good behavior for twelve months. Joe Daniel the charges.

Herbert Lewis, with Mose Ruffin, the latter being drunk, who were in Opera House alley Sunday creating a disturbance, was fined six and ten dollars, respectively.

Luther Wolfe, caught taking a drink of moonshine from a mop bottle, was fined \$51 and costs and given thirty days with the sentence suspended. Wolf denied the charge and noted an appeal but two officers testified of having seen him lift the bottle to his mouth, drink, and then throw it away.

Algie Banks, colored, was summoned to be back tomorrow to answer a charge of obtaining a coat under false pretense from D. Kushner, with the understanding that if he had returned the garment he will not be dealt with.

E. G. Anderson, violating the traffic ordinance, was not present.

Clarence Davis fined \$21 and costs for exceeding the speed limit.

John Graves, colored, was fined \$51 and costs and sentenced to thirty days in jail, the term being suspended on a charge of violating the Mapp act.

W. H. Hughes drew a fine of eleven dollars and costs for conducting himself in a disorderly manner.

Frank Davis, colored, was assessed five dollars and costs for riding a train without paying his fare, or in other words hobnobbing.

It was charged that Alkie Walters, colored, obstructed Police Officer W. B. Foster in performing his duty, and the negro drew a fine of five dollars and costs. Officer Foster early Sunday morning received information of a dice game and when he went to the scene Walters caused the players to skip before the policeman arrived by notifying them and then trying to evade the officer.

Police Officer Foster Harris claims he has the goods this time on Bertha King, Monument street, whom he charges with selling ardent spirits. She, together with James Casner, a woman, will be tried tomorrow morning. The woman has been suspected, it is said, for a long time. Officer Harris claims he saw Casner enter the house and that he peered through a window just in time to see Bertha pour out a bottle of whisky and hand it to Casner. The boy gave her a dollar, he said, and she gave him a quarter change. The officer grabbed him just as he came out, but the youth ran into another house nearby. He also entered and placed him under arrest. There the officer, holding a scene of disorder, but taking into consideration the fact that it was a private home, he made no further arrests.

Sallie Dorcas, colored, was arraigned because three men were seen to enter her home about four o'clock Sunday morning. Sallie claims one of the men came to pay her a bill and that two others were with him. She was let off this time with a warning to keep visitors away at such an hour.

In this connection fines of five dollars and costs were imposed on E. T. Foxworth, Charles Self and A. Y. Yancy. They were charged with disorderly conduct.

Harvey Morton, colored, drew a fine of \$51 for creating a disturbance by the use of profane language. Ethel Bell and Lucy Smith, both colored, were fined five dollars and costs each on loitering charges. Stella Carver and Geneva Young, who were fined only last Friday, were let off this time claiming that they must stop loitering the streets. Other facing a similar charge did not answer when their names were called.

Tikhon Trial Is Postponed

(By The Associated Press)
MOSCOW, April 23.—The trial of the Most Rev. Dr. Tikhon, former patriarch of all Russia on a charge of treason has been postponed indefinitely. It had been set for tomorrow.

DEATH OF B. M. MERRYMAN

B. M. Merryman, age 67, died at his home on Arnold Road Sunday morning at 7 o'clock after some weeks illness of heart trouble. He leaves four daughters and two sons. The funeral services will be conducted from the home this afternoon at 4 o'clock by Rev. H. W. Connelly, pastor of Second Baptist church. The body will be interred in Leemont cemetery.

DEATH OF MRS. MARY VAUGHAN

The death occurred yesterday evening at Edmunds hospital of Mrs. Mary Alice Vaughan, of the Sutherlin community. She was 32 years of age and a native of Gretna, being widow of L. M. Vaughan and a daughter of B. B. Irby. The remains are being taken to Sutherlin today for interment.

Y. Secretary From China Here To See Welfare Work

M. Thomas Tchou, one of the National Industrial Y. M. C. A. secretaries for China, arrived in the city this morning and will spend the day studying the welfare work of the Riverside and Dan River Cotton Mills and visiting the various points of interest in company with H. E. Spessard, general secretary of the Schoolfield Y. M. C. A.

At 6:30 tonight the Schoolfield Y. M. C. A. will serve supper to a group of overseers and other men interested in the foreign work of the Y. M. C. A. at which Mr. Tchou will be the principal speaker.

Mr. Tchou will address the students of the Danville High school at their regular chapel exercises on Tuesday morning.

When seen by a representative of this newspaper this morning, Mr. Tchou expressed himself as being delighted with the hospitality extended to him in Danville and greatly pleased with the splendid welfare work of the Riverside and Dan River Cotton Mills. He remarked that his visit to Danville and Schoolfield was surely to be of great benefit to him as well as a lasting pleasure.

COTTON MARKET

(By The Associated Press)
NEW YORK, April 23.—Cotton opened 75 points higher than Saturday's close on reports of increased demand for cotton goods, heavy covering and favorable cable reports.

May sold to 26.50 at the opening and new crop months showed advances of 25 to 30 points.

Standard Oil, of California, for year 1922, net after tax and charges \$37,019,813 against \$33,588,221 in 1921.

'Home, Sweet Home' Near Century Old

LONDON, April 23.—Close upon a hundred years ago an opera with the romantic title of "Clari" or "The Maid of Milan" was produced at Covent Garden. The libretto was written by a wandering American, John Howard Payne, and the music was composed by the facile and popular Sir Henry Bishop.

The production was a failure and today the very name of the opera is forgotten. Yet in the second act there was a simple song which today is better known than any other far throughout the world.

It was "Home, Sweet Home." The song was a perfect expression of all the homesickness of all the exiles of the world.

THE TRAGEDY OF HUMAN LIFE.

They are not found among the dead, but among the living. On every hand, you see men and women in the prime of life working by the day or hour without social or business position, or hope for the future—Men as Daily Laborers—Women at the Wash Tub, in the kitchen, behind the counter, in the factory and mill, or dependent on some one else for the necessities of life.

SUCH TRAGEDIES CAN BE AVOIDED. They are not found among the graduates of the

National BUSINESS COLLEGE

Your gasoline costs less today

THE Standard Oil Company (N. J.) announces a reduction of one cent per gallon in the tank wagon price of gasoline, effective on April 20th.

This lower price has been made possible by a remarkable increase in the production of crude oil in California—amounting at this writing to more than 700,000 barrels every 24 hours. This has created a surplus above market requirements on the Pacific coast, with a consequent drop in price.

Own a large fleet of tankers, we have been able to move California oil through the Canal 4930 miles to our refineries on the Atlantic seaboard, and so take advantage of the opportunity to buy cheaper crude. A refinery located on deep water can avail itself of crude oil delivered either by tank steamship or pipe line.

This reduction is in line with our consistent policy that the consumer should benefit from economies brought about by lower costs of our raw material or in the expenses of refining, transporting and marketing products.

Standard Oil Company (New Jersey)

DANCERS WERE FORCED TO GET OUT OF DISTRICT

(By The Associated Press)
WASHINGTON, April 21.—Having spent the better part of four sleepless, nerve-racking days and nights, a Washington dance hall, five men and a woman did a one step into trucks at midnight and danced their way out of the District of Columbia, where a Sunday law had cut short their test of endurance.

Forty-five Marines cleared one of the dance halls of 4,000 persons and departed with a truck occupied by Aubrey Gilbert, of Clarkdale, Miss., one of their "buddies" and Josef Bolstrosky, a former cavalry man, who had trod the floor all day and night locked in a tight embrace. Gilbert's comrades said they were there to see that he got "for play."

The contestants, who sought the title of champion long distance dancer and a prize of \$500 to the winner, will continue the fight for supremacy in Virginia or Maryland, whichever or not the record is broken, the winner will receive \$50.

Many thousands of persons have paid to see the contests, which District officials said would be the last of the kind ever. Physicians said the pace was a killing one on an already enduring by persons with unusually strong hearts.

Elsie Weber, who danced 53 hours in Baltimore a week ago was one of the contestants. She had been reported erroneously as out of the race. Physicians who examined her after she had fallen exhausted to the floor, said her condition was as good as that of any of the men.

LADY DOYLE SAYS HYLAN SHOULD TEND TO HIS JOB

(By The Associated Press)

NEW YORK, April 21.—Mayor Hylan should stick to affairs of state and keep silent on subjects which he has no knowledge, in the opinion of Lady Doyle who today rebuked the city's chief executive for his recent attack on her husband, Sir Arthur Conan Doyle, now lecturing in the west. After watching a professional conjurer and delver into telephatic subjects a few days ago, the mayor spoke of psychic phenomena as "hokum," suggested that Sir Arthur's success was due to his acceleration of the jaded nerves of "society folk" and warned against seances and manifestations. Incidentally, he referred to Sir Arthur as "that fellow Doyle."

The mayor would be wise not to give an opinion upon a subject which he has never studied and therefore knows nothing about, Lady Doyle said. "Let him turn all his attention to his own job. I would recommend him to look at the condition of the streets of New York. I have travelled in 23 countries and I have never seen streets in such a disgraceful condition except many years ago in Constantinople."

She ended her rebuke with the assertion that spiritualism would "sweep the world in spite of the foolish utterances of such men."

RUSSIAN MAKES EFFORT TO LAND

(By The Associated Press)

NORFOLK, Va., April 21.—Eugene M. Leischneck, said to be a deserter from the Russian Soviet Army, played a desperate game for liberty Friday night on the steamship West Celina. He lost, and now he is on his way back to England, from which country he will be deported to Russia.

Leischneck came to this country recently as a stowaway on the West Celina. At Boston he was refused admission into the United States. The West Celina bound from Baltimore to Manchester, put in at Norfolk Friday for cargo. Officers and members of the crew related a story of how the young Russian had jumped overboard in upper Chesapeake Bay, leaving a note behind explaining that he preferred death to a return to his native land.

Officials of the ship had the stowaway's note, but they did not entirely satisfy with the suicide story, even though they had seen a mattress bobbing on the surface in the wake of the steamer shortly before the discovery of the note in Leischneck's bunk.

Guards were stationed on the ship last night, and early this morning the young Russian was seen to jump over the rail to the dock and take to his heels. The guards speedily pursued. Leischneck was captured on a freight car and taken back aboard the ship. The ship sailed today for Manchester with the stowaway aboard.

ROW OVER WHALE WAS SETTLED

(By The Associated Press)

BLOOM, Minn., April 21.—The row here over possession of a dead whale eighty feet long, which resulted in one party to the controversy obtaining a writ of replevin from the federal court and an order to the United States Marshal to bring the whale into court so that its disposition might be determined, was settled this afternoon between the litigants before the court. A writ of dismissal was entered, and the deputy marshal who has been a standing guard over the whale for a week was relieved.

Numerous bidders were here for the sale but they had no opportunity to act. It is understood the carcass will be disposed of at a private sale to be converted into fertilizer by the local plants.

Piedmont League Season Opens Here Tomorrow

THE FIRST DAY BACK

Copyright, 1923 (New York World), Press Publishing Company

By Thornton Fisher

Manager Murphy has made his plans for a big celebration on opening day tomorrow when the Danville club of the Piedmont League breaches the season in a game with High Point. These plans include a parade which starts from the Burton hotel at 2 p. m., a band for the game and an official announcer to acquaint the fans with the names and playing positions of the home and visiting ball players.

The official line-up of the Tuxedoists for the opening game has been announced by Murphy, who said that no change would be made except for absolute disability. This line-up follows:

Winston, center field; Allison, second base; Murphy, third base; Trexler, first base; Rolley, right field; Regan, left field; Dorman, short stop; Land, catcher; and Harris, pitcher. Culp, Hughes, Gibson, Toles and Watt will be in reserve and can be sent to the mound at any time.

Every game in the league will start at 4:15 sharp. This is a league ruling made so that each team will be able to get the results of the various league games at the same time.

The Danville club is one of the strongest in the league as it stands, but Murphy stated last night that he was not satisfied with it yet, and expressed his intention of making changes and additions until there remained no doubt in his mind that he had a winning aggregation. With Worth and Tremblay in the line-up the team will have gained greatly. These men are expected to arrive May 10. Worth will not be in the best of condition at that time, but Tremblay will be ready to serve. Worth since his last operation, by which he got rid of an old and chronic trouble, is expected to be better this year than ever before.

Watt arrived last night and reported to Murphy. He is a ex-toutier apparently capable of plenty of work. His recommendations are of the best and he is expected to gain a regular berth on the team.

Gibson worked out for the first time yesterday and Murphy said that he was much pleased with the twisters of the hurler. Culp's work on the mound yesterday was most encouraging.

Allison has been suffering from a sore arm for the past few days and this had been militating against his throwing. Yesterday he missed two chances at a double play because he couldn't throw. Friday he also missed an opportunity to make a double killing for the same reason. He hopes to be able to work out the soreness by Tuesday's game.

Every club in the league is going to make a special effort to copy the attendance record this year. Last season High Point took the honors. It will be easier for Danville to capture this honor this year if only the loyal fans respond to that impulse Tuesday and make the pilgrim to Stonevale Jackson Park. A large attendance will do as much as any other thing to encourage the local club. It has been a kind quickly has been in a team. It engenders better playing spirit.

National League

BOSTON 14; PHILADELPHIA 1

(By The Associated Press)

BOSTON, April 21.—Boston made 19 hits and scored 14 runs against Philadelphia today, winning the game 14 to 1. The visitors' run came on Rapp's home run to right center off Tim McNamara. McNamara made three hits, scored four runs and fielded well. Felix for Boston got on base five times, making a homer and two singles.

Score: Philadelphia 000 001 000—1; Boston 045 005 25X—14; 19 hits. Hubbell, Mitchell, Grant and Hendline, Wilson, McNamara and O'Neill.

CINCINNATI 12; PITTSBURGH 6

(By The Associated Press)

CINCINNATI, O., April 21.—The Reds knocked Culp out of the box in the first inning and continued their heavy attack at the expense of three other pitchers, winning easily 12 to 6. Donohue led down with a safe lead and was rather hard hit toward the finish.

Score: Pittsburgh 001 100 51—6; Cincinnati 440 102 25X—12; 17 hits. Culp, Rapp, Carlson, Hamilton and Schmitt, Donohue and Hargrave.

CHICAGO 10; ST. LOUIS 8

(By The Associated Press)

CHICAGO, April 21.—Home runs by Miller, Kellner and Hirtz, the latter driving in two runs, helped the Cubs to a 10 to 8 victory over the Cardinals today and defeat St. Louis 10 to 8 in the first game of the series.

Score: St. Louis 500 010 002—8; Chicago 141 000 01X—10; 14 hits. Puffer, North, Backot and Armstrong, Chavez, Russell and Hartnett.

NEW YORK 7; BROOKLYN 0

(By The Associated Press)

BROOKLYN, April 21.—The New York Giants today shut out Brooklyn 7 to 0 in their first encounter of the season before a crowd of 22,000. McCann was in charge for Brooklyn but was pulled out of the game because of sharp fatigue. The Giants made 14 hits off Mammola in 7 innings, beating the assault with two doubles and a single, accounting for the runs.

Score: New York 100 004 000—7; Brooklyn 000 000 000—0. McCann and Snyder, Mammola, Lockerman and DeBerry.

FIGHT FANS SEND LETTER TO HERMAN

Fight fans generally, buddies particularly: "Why not give Pete Herman a postcard shower? For at least three months he is doomed to be flat on his back in a desperate battle to prevent total blindness as a result of an injury received when he was boxing without compensation for the benefit of the Soldiers and Sailors Tobacco Fund in 1917.

Can you spare the time to drop a line to the former flyweight and bantam champion who lost the world's championship after the sight of one eye was entirely gone, then regained it and stayed with the game until his vision was so bad that he could not see his opponent distinctly?

Address your postcard to Peter Gulotta (his real name), 3320 Tulane avenue, New Orleans, La.

FLORIDA RUNS OVER OPPONENTS

(By The Associated Press)

GAINESVILLE, Fla., April 21.—University of Florida athletes, by piling up a total of 73 points this afternoon, ran rough shod over representatives of other southern colleges and athletic clubs, winning by a margin of 41 points the first open track and field meet ever staged under auspices of the State University here.

Centre College of Danville, Ky., was second with 25 points while the Atlanta Club won third with 22 points. Oglethorpe with 11 points, Georgia Tech with 9, Fort Pierce with 8, Gainesville Athletic Club with 6 and the Coast Athletic Club of Jacksonville with 2 points finished in the order named.

RANDOLPH-MACON BEATEN

(By The Associated Press)

ASHLAND, Va., April 21.—William and Mary today defeated Randolph-Macon College 21 to 15 in a football game played here today and took three touchdowns and two double touchdowns.

FRESHMEN HAVE HARD SCHEDULE

LEXINGTON, Va., April 21.—The Washington and Lee freshmen football team for 1923 will face the toughest schedule thus far attempted by a first year football team.

The first year football team will face in all, including some of the strongest prep school and freshmen teams in the state.

Because of the increasing amount of stress being put on freshmen athletics by the larger collegiate institutions of the South the schedules for the first year teams are of much greater importance and for that reason the football schedule has been made but far in advance of the season.

The list of games as arranged for by Graduate Manager R. A. Smith calls for the following:

Oct. 6—Augusta Military Academy at Fort Denham, Va.
Oct. 13—Staunton Military Academy at Staunton, Va.
Oct. 20—The Newport News Shipbuilding Apprentice School at Newport News, Va.
Oct. 27—Chatham Training School at Chatham, Va.

Nov. 2—University of Virginia Freshmen at Charlottesville, Va.
Nov. 17—Massachusetts Academy at Woodstock, Va.
Nov. 24—P. I. Freshmen at Blacksburg, Va.
Nov. 29—Blackstone Military Academy at Blackstone, Va.

NO DECISION WAS GIVEN IN FIGHT

(By The Associated Press)

NEWPORT NEWS, April 21.—Pope Larkin, who refereed the ten round bout at Fort Monroe last night between Jack Britton, former welterweight champion, and Jim Montgomery introduced as "champion of Ireland" made the statement tonight that he gave the decision to Britton at the conclusion of the fight, that he gave no decision whatever.

I repeatedly warned Britton and Montgomery that either they must stop up a better exhibition or I would stop the fight," said Referee Larkin. "I would like for the sporting public to know that I wanted it the worst exhibition of my fighting. I have ever seen and was constantly arguing with both men to either fight or quit. Once Britton became very angry and passed several words to me but I was forced to pull them apart to do the best I could to make them give some resemblance to a prize fight. The mistake I made was in not stopping the fight and declaring it a no-fight. I am emphatically that I gave Britton the decision as this morning's papers stated. He and Moran, his manager, will vouch for that." The ten-round bout between Britton and Montgomery was hoped by the crowd of 1,500 or more fans at Fort Monroe from the start to the finish.

Kinks o' the Links

When playing out of a sand trap, the club head touches the sand on the upward swing. The player goes through with the swing and successfully gets out of the trap. In addressing the ball the sand was not touched with the club.

Is a player penalized a stroke when the club head touches the sand before coming into contact with the ball regardless of the circumstances, or is there a line of discrimination?

The player is penalized a stroke for touching the sand with the club head. The fact that it came on the upward swing makes no difference. The rule is very definite and no exceptions are noted. While the player was in no way aided by the act, no consideration can be given a fact. He must suffer the penalty of one stroke.

Player's drive from the tee results in a slice that strikes a spectator standing well off the fairway. After striking one of the gallery the ball is deflected into a very bad lie. Has the player any recourse?

Such a happening is merely regarded as a break of the game. The ball must be played from the resulting lie.

Leaksville H. S. Defeats All-Stars

LEAKSVILLE, April 21.—The Leaksville High School baseball team defeated the Danville All-Stars here this afternoon to the tune of 5 to 4.

The locals put up a great game, while the visitors staged a rather listless affair as a whole. But with a few players putting their every effort into the game.

Lefty Hill, twirling for the Leaksville aggregation, was hit for ten safeties, but he kept them so well scattered that the Danville players were unable to register but four runs.

"Mickey" Walker pitched a good game for Danville but he received raged support, six errors being credited to his teammates. Carter did the receiving for the visitors.

The locals gained a three run lead in the first inning. Danville had not scored but one run until the eighth when they registered three more, and even had a chance to tie and probably lead if not been for what ball players term "bone head" playing. G. Hughes hit for the circuit in the eighth inning. He had previously gotten a two-bagger, which would have ordinarily called high over the fence for a homer, but the strong wind against the ball retarded its speed.

Walker fanned twelve batters and allowed but six hits but they were bunched and this with the raged support accounted for the three runs. On the other hand Hill kept his ten hits well scattered and was lucky in holding the visitors to four runs, and would not have done so had they played bang-up ball. The locals are credited with four errors.

NAVAL ACADEMY MAKES A CLEAN SWEEP IN REGATTA

(By The Associated Press)

ANNAPOLIS, April 21.—Pulling a more powerful stroke and displaying noticeably smoother form, Naval Academy eight oared crews made a clean sweep in the regatta with the University of Pennsylvania Oarsmen on Severn River this afternoon. There were brushes between varsity second and third, the summary of which follows:

Navy's varsity defeated Pennsylvania's varsity by nearly two lengths of open water. Time 7:26, Pennsylvania 7:36.

Navy's second crew defeated Pennsylvania's second by more than two lengths. Time Navy 7:43, Pennsylvania 7:57.

All were at the Henley distance of one mile and 5-16.

American League

NEW YORK 7; BOSTON 6.

(By The Associated Press)

NEW YORK, April 21.—The New York Yankees made a clean sweep of their four game series with Boston, winning the last game of the series today 7 to 6. Mays was hit hard but romped in the box until the first three Boston hitters in the ninth singled.

Jones, who relieved him, barely squeezed through, as two runs were scored and Scott threw out the tying run at the plate. Ruth failed to make a hit for the first time this season and struck out twice. The crowd was estimated at 50,000 bringing the attendance for the series, up to 250,000, a new record for a four game series.

Score: Boston 010 300 002—6; 13; 0. New York 004 120 00X—7; 8; 0. O'Doul, Fullerton, Murray and Devermer; Mays, Jones and Schang.

DETROIT 16; ST. LOUIS 1.

(By The Associated Press)

ST. LOUIS, April 21.—Detroit swept St. Louis out here today taking the final game of the series, 16 to 1. It gave the Tigers three of the four contests. The locals used 19 players, six being pitchers. McManus saved the Browns from a shut out with a double in the seventh, scoring Williams, who had singled. The locals made five errors.

Score: Detroit 410 233 030—16; 16; 0. St. Louis 000 000 100—1; 14; 0. Dausa, Moore and Gessler; Manion, Carrish; Wright, Bayne, Root, Elliott, Danforth, Pruett and Severeid, Schultz.

WASHINGTON 6; PHILA. 4.

(By The Associated Press)

PHILADELPHIA, April 21.—Washington took the final game from Philadelphia here today, six to four, pounding on Rommel for four runs in the fourth inning. The Athletics staged an uphill fight for the game and at one time were but one run behind with the bases filled when a double play ended the rally. Miller made his first homer of the season, while S. Harris of Washington also hit for the circuit. More than 30,000 fans swarmed the park.

Score: Washington 010 400 001—6; 9; 2. Philadelphia 010 101 100—4; 6; 1. Zachary, Russell and Garrity; Rommel, Ogden, P. Harris and Perkins.

CLEVELAND 5; CHICAGO 1.

(By The Associated Press)

CLEVELAND, April 21.—Cleveland made it four straight from Chicago today winning 5 to 1. Uhl was effective with men on base while Cleveland hit Robertson hard enough in the first inning to win the game. The veteran Larry Gardner went to third base in place of Lutzke, who injured his hand in Friday's game and made two hits, driving in three runs.

Score: Cleveland 000 100 000—1; 5; 1. Chicago 301 100 00X—3; 11; 0. Robertson and Schaik; Uhl and O'Neill.

D. A. R. FINALLY ON RECORD AS BACK OF SEC'Y WEEKS

(By The Associated Press)
WASHINGTON, April 21.—The resolution of Mrs. William Cunningham of New York, endorsing the stand of Secretary Weeks of the War Department on pacifism and preparedness, which was tabled yesterday by the continental congress of the Daughters of the American Revolution, against today disrupted the calm of the delegates and after half an hour of confusion and uproar a similar declaration was adopted under a suspension of the rules.

The fight over this resolution and the inauguration of Mrs. Anthony Wayne Cook of Pennsylvania, and other national officers, provided virtually the only business at the concluding session of the annual congress.

Tonight most of the 2,000 delegates had left for their homes.

The resolution of Mrs. Story, whose withdrawal as a candidate for president general caused a sensation Wednesday night, was lost yesterday when objection was made that its contents had been covered in a preparedness resolution later year and in others acted on at various times. Reconsideration of the subject, however, was proposed in the midst of a calm session today and the heated discussion which followed included charges that Mrs. Story's authorship of the original resolution was the reason it was tabled.

Mrs. Frank A. Greenawalt, former regent of the District of Columbia in re-opening the subject, quoted from a newspaper report to the effect that the society's action yesterday had placed the daughters in the position of having "refused" to stand back of the resolution in its effort to keep the United States prepared for eventualities. The proposal quickly aroused dormant antagonism but after considerable discussion the resolution was adopted.

Resolutions memorializing Congress to enact a uniform divorce law and petitioning for retirement pay for regimental pay for nurses in naval hospitals also were adopted. The daughters also went on record in favor of legislation to sanction the reading and teaching of the Bible in public schools, sponsored by the Fredericksburg, Va. chapter and approved a movement to acquire and preserve Kenmore, the home of Betty Washington Lewis, George Washington's only sister.

—Miss Ella Fullington and mother have returned to the city after a two weeks visit to friends in Hampton, Va.

Cocoon Oil Fine For Washing Hair

If you want to keep your child's hair in good condition, be careful what you wash it with.

Many soaps and prepared shampoos contain too much free alkali which is very injurious as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified coconut oil shampoo for this is pure and entirely greaseless. It is very cheap and beats anything else all to pieces. You can get Mulsified at any drug store, and a few ounces will last the whole family for months.

Two or three teaspoonfuls of Mulsified in a cup of glass with a little warm water is all that is required. Simply moisten the hair with water and rub the Mulsified coconut oil in. It makes an abundance of rich, creamy lather cleanses thoroughly, and rinses out easily. The hair dries looking and feeling soft, fresh, looking, bright, fluffy, wavy and easy to manage. Besides, it loosens and takes out every particle of dust, dirt and dandruff. Be sure your druggist gives you Mulsified.—adv.

"POSITIVELY MR. SHEEN."

Messrs. Gallagher and Sheen have made a wonderful hit with Zeigfeld Folies. Their hit in the amusement world can't compare with the hit Dr. Harris' Prescription is going to make to suffering humanity. No more belching gas—no more sour stomach—no more heart burn, after taking one teaspoonful after each meal. Positively the greatest digester-stomach regulator on the market.

No use to suffer now when this Prescription is within the reach of all. Get a bottle today and see how much better you feel tomorrow.

SCIENTIFIC SLEUTH CLEARS WOMAN OF SLAYING VISITOR

(Special to The Bee)
NEW YORK, April 23.—The scientific detective can do more than convict the guilty," says Dr. Otto B. Schulz, medical assistant attorney of New York and just discovered by The Bee to be the real life original of "Craig Kennedy, scientific detective."

At Stamford, Conn., the unconscious body of a prominent man was found on the sidewalk. He died from fracture of the skull before regaining consciousness.

Police investigated and found bloody footprints in a nearby doorway. These prints, which were made by bare feet, led to a landing up the stairs where a large quantity of blood was found. Then they continued to an apartment on the second floor, occupied by a middle-aged woman.

"Despite her protests, the police searched the apartment. Hidden away in a chest of drawers were the straw hat and eye-glasses of the deceased. The smashed and blood-stained straw hat was found hidden in a closet. There was a flat-iron in the room.

"When the police found that the man had been in her apartment and the base of the straw hat, they arrested her. After an autopsy a local physician reported that death was due to fracture of the skull and that parallel marks on the forehead of the deceased corresponded to creases in the crown of the smashed straw hat. The bloody prints of bare feet were shown to be those of the suspected woman.

"The woman was indicted for murder. She protested her innocence but refused to make any explanations.

"I entered the case at that point and had the body now buried three months, exhumed and performed an autopsy.

"Examination of the skull showed five radiating fractures centering in a common point behind the right ear over which the skin had not been broken. This eliminated the forehead as the site of infliction of violence.

"The parallel marks on the forehead described in the first autopsy were examined. We found that they were on the right side. The dent in the straw hat was on the left. I then measured the marks carefully and found that they did not correspond to the creases in the straw hat brim, but did correspond to the corrugations in the rubber mat on the stair carpet.

"Now the first autopsy had described no wound which could account for the large quantity of blood on the landing and for the bloody footprints. The new fracture would account for the blood, as one of the radiating fractures had passed through a large vein opening into the ear.

"So we were able to draw accurate conclusions from the new evidence. The man leaving her apartment in the dark, had fallen, striking his head on the rubber carpet, and then plunged headforemost down to the landing, knocking the back of his skull. So much the marks on the forehead and the presence of the large quantity of blood on the landing told us.

"The woman heard the fall, rushed out of her apartment in her bare feet and went down to the landing. With the man's head resting on her shoulder, she helped him down to the street. Then she went back, taking the hat and glasses with her.

"The flat-iron had nothing to do with the murder. Death was due to an accident, the indictment against the woman was dropped.

"DESPITE HER PROTESTS, THE POLICE SEARCHED THE APARTMENT."

out of her apartment in her bare feet and went down to the landing. With the man's head resting on her shoulder, she helped him down to the street. Then she went back, taking the hat and glasses with her.

"The flat-iron had nothing to do with the murder. Death was due to an accident, the indictment against the woman was dropped.

TOMORROW: How a woman's teeth trapped murderer.

C. E. VANHYEN ADDRESSES LAW AND ORDER CLUB

CHATHAM, April 21.—C. E. Vanhyen, of Springfield, Ohio, spoke here last night at a meeting of the Law and Order League, in interest of the Anti-Saloon League. It was an enthusiastic gathering and Mr. Vanhyen's speech was very interesting. W. T. Shelton, prohibition inspector, also made a short talk. Among those present were court officials and county officers. Mr. Vanhyen is here under the auspices of David Hepburn, in charge of the Anti-Saloon League of this state. His speech was in behalf of the anti-saloon league. The meeting last night was largely attended, about 80 persons being present.

Mr. Vanhyen stated that he was here to create public sentiment that is now so slack and to help form law and order leagues in the school districts, also to appeal for the aid of court officials. His speech last night was illustrated in an interesting way by pictures, the accumulation of his 35 years as a saloon keeper. Mr. Vanhyen was converted 18 years ago, he says, through the pleas of his daughter, giving up the liquor business and soon thereafter began to fight it. He says that since that time he has been working for the abolishment of liquor in 40 states of the union. The pictures present vivid illustrations of life in a bar room and a dance hall, so numerous years ago. Mr. Vanhyen will speak at Design Saturday night at 7:30 o'clock.

METEOR FALLS IN RUSSIA

TSARITZAN, Russia, April 21.—One of the largest meteors ever seen in Russia fell recently at a point near the village of Karnovsky, 50 miles from Tsaritzan. It penetrated the earth to a depth of about fifteen feet, making a hole considerably more than a yard in diameter.

TWO BANKERS CONFESS THEY STOLE FUNDS

(By The Associated Press)
DETROIT, April 21.—A second confession of misappropriation of funds of the Grosse Pointe Savings Bank was announced by the sheriff's office today following the arrest last night of Albert E. Kerby, cashier of the institution. Kerby was arrested after Chas. D. Ransom, vice president of the bank, startled the sheriff's office by voluntarily appearing and announcing that for nearly five years he had appropriated to his own use funds belonging to the institution.

Kerby estimated, according to the sheriff's office, that his speculations extending over a period of four years would not exceed \$10,000. The amount of Ransom's shortage has not been definitely established, though he declared securities in his possession would yield between \$20,000 and \$30,000 and cover the amount.

There was no connivance between the two bank officials, they asserted. Both declared they appropriated the funds for investment in projects they believed would net them considerable gain.

Their method, according to their confession, was to credit deposits by patrons in the pass books but not on the books of the bank. When withdrawals were made by customers whose deposits had not been properly recorded, amounts necessary to meet the withdrawals would be transferred from the account of a larger depositor. This necessitated the maintenance by Kerby and Ransom of a detailed record of each transaction. Both said they followed this practice for more than four years.

To determine the exact amount of the shortage, it was said, all depositors' pass-books will have to be called in for checking against the bank records.

EGYPT DECLARED SOVEREIGN STATE

(By The Associated Press)
CAIRO, Egypt, April 21.—The new Egyptian constitution, which was signed by King Fuad, last night, declares the country to be a sovereign state, free and independent; succession to the throne shall be hereditary in the family of Mohammed Ali, the official religion shall be the Islamic and the official language Arabic.

One article provides for the obligatory elementary education of both sexes, to be provided free of charge in public schools. This marks a great educational stride, especially in the case of the girl.

The documents say in part: "The present constitution is applicable to the Kingdom of Egypt. This provision in no way affects Egypt's rights in the Sudan. . . . The title which the King of Egypt shall bear will be established after authorized delegations have fixed the definite status of the Sudan."

The premier, in a letter to the King, remarks that the two articles relating to the Sudan appear in the constitution because of the assurance received from Field Marshall Allenby, British High Commissioner in Egypt and the Sudan "that the British government do not desire to bring in discussion Egypt's rights in the Sudan or her rights to the waters of the Nile."

V. P. I. TRACK TEAM DEFEATS W. and L.

LEXINGTON, April 21.—The V. P. I. track team defeated Washington and Lee today in a hard fought contest. The score was 68 1-2 to 57 1-2. The Tech athletes jumped into an early lead on a mile leading 20 to seven in the first three events. The Generals showed up well in pole vault, however, and narrowed the margin to four points. The remaining contests were close, the Tech men gradually pulling away from their opponents and winning the meet by 11 points.

Scotman: "I hear there are a good many of my countrymen in Australia."

Australian: "Yes, but the worst feature is the rabbits."

You Walk In Comfort

If you Shake Into Your Shoes some Allen's Foot-Ease, the Antiseptic, Healing powder for shoes that pinch or feet that ache. It takes the friction from the shoe that gives instant relief to corns and bunions, hot, tired, aching, swollen, sweating feet, blisters and callouses. Ford

THE UNIVERSAL CAR ANNOUNCEMENT

Of Interest To

MILLIONS of FAMILIES

"I Will Build a Car For the Multitude."

Said Henry Ford in 1903—Read how the fulfillment of that prophecy is now made possible through the

Ford Weekly Purchase Plan

For many years it has been Henry Ford's personal ambition to make the Ford the universal family car—to put it within the reach of the millions of people who have never been privileged to enjoy the benefits of motor car ownership.

During the past fifteen years over 7,500,000 Ford Cars have been placed in the hands of retail customers—more than a million and a half of them within the past twelve months—and yet there are still millions of families who are hopefully looking forward to the day when they can own a Ford.

And now the way is open.

Under the terms of this plan you can select your Ford Car, set aside a small amount each week and you will be surprised how soon you will own it.

Think it over. Five Dollars will start an account. The whole family can participate in it—father, mother, brothers and sisters each doing a little.

Why not start today. Stop in and talk it over with your local Ford dealer. He will be glad to fully explain the details of the plan and help you get started toward the ownership of a Ford Car.

Wholesale Smash of Air Records Puts U. S. First in World Race

LEFT TO RIGHT: ABOVE, LIEUTENANTS HAROLD HARRIS, JOHN A. MACREADY, OAKLEY KELLY AND LEIGH WADE; BELOW, LIEUTENANTS L. J. MAITLAND, R. L. MAUGHAN AND ALEX. PIERSON. ALL ARE MCCOOK FIELD MEN.

MCCOOK FIELD, Dayton, O., April 23.

The world's airplane speed record—241 miles an hour—was held by Brig. Gen. William Mitchell.

World's altitude record—40,800 feet—has been established by Lieutenant John A. MacReady.

World's endurance record—36 hours 5 minutes and 20 seconds—is held by MacReady and Lieutenant Oakley Kelly.

The same two pilots have established the world's non-stop distance record—2060 miles.

Lieutenant Lester J. Maitland has established the world's one-kilometer speed record—244.7 miles an hour.

Lieutenant Russell L. Maughan holds official speed records for 50 and 100 kilometers.

Lieutenant Alex Pierson has broken the French speed record for 500 kilometers by more than one hour while Lieutenant Harold R. Harris has lapped almost two hours off the previous French record for 1000 kilometers.

To establish these records and to bring America into first place among the nations contending for air supremacy the young record-holding birdmen—all stationed here—have continually run the risk of being killed in a mass of tangled wreckage or of being crippled for life.

To what end?

The present epidemic of record making and breaking to some appears foolish but the officers of the United States air service reply by saying that every flight made and every record attempted is done to test or prove some scientific fact.

This is true of the work going on at both McCook and Wilbur Wright fields.

Every record made by these men, who one day will be recognized the pioneers of the air service, has a predetermined military and a commercial value.

In the altitude work, for instance, it is pointed out that in case of war the highest fliers always have a distinct advantage over his adversary, as events on the west front showed during the world conflict.

Carrying along the same argument as applied to commercial aviation, it is claimed there are certain trade winds at great distance above the earth of such velocity that a transcontinental trip could be reduced to few hours.

It is known that when MacReady attained his "ceiling" (as the high-

est point any given machine is capable of reaching is known) he made observations of incalculable value to the air service along these lines.

Speed trials have their military and commercial value as well.

The speed basis, the Martin bombers, the B-1's and the great Baring bomber, now in secondary stages of assembly are all direct results of the world race in the science of aviation.

The last named ship is without question the largest bomber that has ever been constructed. It was designed as the forerunner of a greater airplane and it is pointed to as another direct result of competition in the world for air supremacy.

And the object of an endurance flight is not merely to determine who can stay in the air the longest. It was designed primarily to determine what effect long endurance flying would have on the motor and component parts of the plane, to develop weaknesses which must be eliminated in future building.

Airplanes and pilots were recently allocated to the cotton belts to wage a fight against the destructive boll weevil. The cotton plants will be sprayed with a poison powder, which will destroy the weevil but not affect vegetation.

This is said to have been direct result of pioneer work done two years ago this summer by Lieutenant MacReady, who sprayed catnip groves, threatened with total destruction by swarms of caterpillars.

Again the successful operation of the aero mail service, speedy dispatch of passengers between Cleveland and Detroit in 30 minutes are suggested as other phases indicative of the work being done by the pioneers.

The epidemic of record breaking flights this year is in line with the plans laid down by the air service, all designed to be of practical value to the army, the navy and commerce.

Right now plans are being made for further flights, designed to startle the world. One of these is an airplane flight around the globe. When it is authorized by formal order, it is expected Lieutenants MacReady and Kelly will be nominated for that honor.

Brig. Gen. William Mitchell, the only "flying general" in the world, is authority for the statement that flights between New York and Peking, China, in 65 hours with four stops for gas, at a cost to passengers

of \$1200, will be a reality within the very near future, probably within six months or a year.

Last year showed one commercial concern, operating a fleet of 27 airplanes, carried more than 9000 passengers 117,000 miles without a single casualty.

Reports of military flying each year for the period from 1919 to 1922 inclusive, reveal there were only eight fatalities out of each 100 men doing combat, pursuit, formation, and other military aerial experiments. Only two men out of each 100 were incapacitated from further duty as pilots.

A number of record flights remain to be attempted during the summer. These include bomb carrying tests to determine how great a weight can be carried by a specified single engine plane over 500 and 4000 kilometers. This flight will be made by Lieutenant Harris.

Lieutenant Wade is slated to attempt a new altitude record with a specially equipped Martin bomber carrying two engines.

One other development coming out of McCook Field is an aerial ambulance big enough to carry two injured men, a surgeon and nurse.

While the army air service is proceeding with the perfection of new planes and plans, the United States navy is also conducting experiments designed to develop that branch of the service.

All this activity is primarily for the purpose of being prepared for an emergency. The air service contends that the nation having the best airplanes and the most efficient aviators will be the victor.

BUNCO BABY FAILS TO FOOL HOOCH HOUNDS

ATLANTA, April 21.—A nose trained to the scenting of smells of a smoky nature, made famous by Lobby Burns, the Hawks, the Lawsons, et al, caused the undoing of an enterprising and imaginative rum runner near here.

This worthy had a scheme, regarded as "fool-proof" by the elite of the rum-runners. But his little scheme failed to take into consideration the keen noses of officers.

"Is precious baby'skin cold?" almost whispered the girl in the front seat of the speeding car as they flew past the officers.

Then came the smoky smell. Then a chase.

A search that revealed 11 cases

WAS SERVING TIME

(By The Associated Press)

SALISBURY, N. C., April 21.—Jim Carruthers, who was captured today at Macon, Ga., was serving a four-year sentence here for conspiracy to commit murder when he escaped seventeen years ago. A brother convicted on the same charge also escaped at that time but was captured two years ago.

Officers left here today for Macon, to return the escaped convict to this state.

Satan's Empire Falling

"MILLIONS NOW LIVING WILL NEVER DIE."

—Judge Rutherford

SATAN'S wicked influence has long been in every part of the world. Together with his associate devils he incites people to hatred, strife, murder, and induces war and anarchy, wrecking homes and driving many to insanity and suicide. Satan caused the fall of men, and established his

EMPIRE. His wicked influence has overreached the denominational churches, causing many clergyment to forsake God and unite with profane and politicians to control mankind. But the end is here and his empire is

FALLING; and Christ, the rightful king, though invisible is beginning to reign. Hence the distress of nations, of which Jesus spoke. These troubles will soon reach a climax and disappear, followed quickly by peace and prosperity,

FARMERS PROFIT THROUGH SELLING CORN FED STEERS

WASHINGTON, April 22.—Illinois, Iowa and Nebraska corn belt farmers averaged 25 cents a bushel more for the corn they fed to steers during last winter than they would have received for it at local market prices.

Cost figures compiled by the Department of Agriculture show feed steers averaged \$7.10 per 100 pounds in cost. A margin of \$1.29 for 100 pounds was necessary on the average to pay for feed, labor, interest, equipment and marketing charges after certain credits. The finished cattle sold on an average for \$8.39 per 100 pounds, so that the feeder made a profit of 67 cents per 100 pounds.

Returns in individual instances came perilously near to the loss column due to bad markets and other causes, says the department, "but the average farmer received more than the market price for his corn and

POWER

Is absolutely necessary to make a machine run. If something prevents a machine from getting sufficient power, it cannot do its work properly.

The human machine gets its life power from the brain. From which it is dispatched through the spinal cord over the nervous system to every cell in the body. If the lungs, heart, stomach, kidneys, liver, etc., or any part is weakened or not working right, something somewhere is cutting off some of the power.

IN MOST ALL CASES THIS POWER IS WEAK BECAUSE OF PRESSURE ON A NERVE WHERE IT LEAVES THE SPINE.

Chiropractic Adjustments

remove this pressure and the power gets through. Let us explain more fully how.

3 COL—FIRST RUN CUT

BROOKLYN, April 22.—Science has at last succeeded in bringing the dead back to life.

But its power works only on infants, not adults.

More than two months ago a baby boy, one of twins, was born dead. To day he is as much alive as his little twin sister.

In Spring Lake, N. J., another youngster was born without any signs of life. Three times it was resuscitated and three times it again died, before science succeeded in restoring it to life.

The secret of this new life was found in the gland of a sheep. And the application of this fluid, called "adrenalin," was first made on babies by Dr. Philip Mininberg at a hospital in Brooklyn. He is now being heralded as a savior of mankind.

A serious student, Dr. Mininberg has long experimented with this fluid. He knew that it had been used to restore life temporarily to adults apparently dead. Why shouldn't it be useful in case of an infant?

Last February Mrs. Bertha Isaacson gave birth to twins. The girl was normal, but the boy's heart and lungs refused to function. He was, to all intents and purposes, just another of those pathetic little mites denied the chance to live.

It was Dr. Mininberg's opportunity to try his experiment. Giving a hypodermic needle, he pierced the chest wall, injected a solution of adrenalin directly into the heart, and waited. The heart began to beat and the life came back. And it lasted.

"Dorothy is as healthy now as any baby of his age," says his mother proudly. "He's as husky as his sister, and weighs half a pound more."

"I never expected the boy to live. They didn't tell me at first that he had been born dead. But a mother's heart somehow just senses such things."

"When told about the heroic measures that were being applied, I listened listlessly, but didn't put much stock in it. But now with the boy's etalon etalon etalon shrd shrd really alive, I want to broadcast to all mothers this message:

"Never give up hope. Put your faith in prayer and science, and it will all come out all right."

Dr. Mininberg explained for NEA Service the use of the new drug.

"The use of adrenalin in the case of infants should mean that a great number of the babies who come into the world stillborn will be restored to life," he said.

"From 10 to 15 per cent. of the babies are asphyxiated at birth but this is easily overcome by slapping them or by a sudden application of cold water. Some physicians even dangle them for a moment by the feet."

"Adrenalin, however, finds its usefulness in the severer cases where the infant is to all intents dead."

Dr. Mininberg, however, holds out little hope to those who would assume that adrenalin is to become the universal restorer of life.

"It would be of little use to adults," he pointed out, "because the disease which caused death would still remain."

"Yet there is an instance on record where a 'dead' man was by the use of adrenalin, restored to life for eight hours. I have seen cases where life has been restored for a period of a half hour or more. But the recovery was never for long. It is only that the physician is bound by all in his power to preserve life as long as possible."

ANTI-KLAN PUBLICATION GO INTO BANKRUPTCY

(By The Associated Press)

CHICAGO, April 22.—Petitions in bankruptcy were filed today against the Torchlight Publishing Company, the American Unity Publishing Company, and the American Unity League, anti-Klan Klan organizations. The assets were listed as \$4,000 while the obligations of the American Unity Publishing Company were placed at \$475,000. The petitions were filed in behalf of creditors.

BOY APPEALS TO COUSIN HARDING

(By The Associated Press)

YORK, Pa., April 21.—There are some things that even the president can't do, and that's what a 7-year-old boy of York, Pa., learned today and his pleading ambition to be a president went the way of most boyhood dreams.

Th other day when he was refused a job on the York force, he resolved to appeal to a higher authority, his cousin. And in this case his cousin happened to be the president of the United States, President Harding replied promptly:

"Dear Walter:

"I am afraid the York authorities would be doubtful about the right to intrude in this matter.

"I feel sure that a boy as big as you are ought to be a little more thoroughly competent but it is a little hard to get the regulations in such matters waived.

"I think the best thing for you to do is to wait until you grow about two feet taller and then you probably will be able to get on the force if you still want to do so."

HIGGINS' WILL HAS DISAPPEARED

(By The Associated Press)

HICKORY, N. C., April 21.—A will by which J. W. Higgins, Vance county banker, is said to have bequeathed \$80,000 to further the work of the Methodist Episcopal Church, South, has disappeared and attorneys in six towns in the State have been retained to investigate the affair, the Rev. W. O. Goode, secretary-treasurer of the board of education of the Western North Carolina Conference of the Church said today.

There is no question of fact as to the will, according to Mr. Goode, who said it was seen a few days before the death of Mr. Higgins, but it cannot be found, he added. Mr. Higgins who was 82 years of age and childless was struck by an automobile driven by Elias Hester, 16, several weeks ago and died in a Marion N. C. hospital. His farm, valued at \$16,000 was left to a nephew, Joseph Higgins, and the remainder of his fortune to the church, discharges said at that time.

WRIGHT IS HELD ON WHITE SLAVE LAW VIOLATION

(By The Associated Press)

PETERSBURG, Va., April 21.—W. P. Wright, painter, was arrested here today by Federal Officers in charge of violating the Mann White Slave act by bringing a young woman from High Point, N. C., to Petersburg for immoral purposes in 1921. The warrant upon which Wright was arrested was issued by Federal authorities in Greensboro, N. C., following his indictment by the Federal grand jury there. Wright was brought before United States Commissioner Lyman immediately after his arrest, and was ordered to be taken to Greensboro, N. C., to await trial.

LENINE'S TEMPERATURE HAS TAKEN A RISE

(By The Associated Press)

MOSCOW, April 21.—It was announced today that during the past two days a rise has been in the temperature of Premier Lenin to 37.8 centigrade (100.04 Fahrenheit) which had resulted in a certain general weakness, but that despite this improvement in his speech and in the movement of the right arm and leg was continuing.

Today the patient's temperature, the announcement stated, ranged from 37 to 38.5 centigrade (98.6 to 101.3 Fahrenheit) with pulse 104 and respiration 22.

NEW POLISH PRESIDENT OPPOSES GROUPS

WARSAW, April 21.—President Wojciechowski, the present head of the Polish state, entertaining far more than his predecessor, Marshal Pilsudski, and negotiations freely.

Polish aristocracy, which was inclined to boycott Pilsudski, pays the president and his friends much respect. However, the chief pleasure of the executive is to invite representatives of various, even opposing, parties or groups, and to entertain them with a lecture on economic questions delivered by a prominent scientist. President Wojciechowski has reported several times that the co-operation of opposing political groups in improving Polish finances will prove the best way to curb factionary disputes.

The plan already has borne fruit. In December, following the assassination of Narutowski, the breach between automatists and radicals was such that there was not a question upon which representatives of both camps would consent to work together, whereas today there is friendly co-operation. If not of all groups, at least of a good part of them. When the diet decided to draft the finance bill proposed by Minister Grabski, all parties except the national democrats, but including two other groups of the national block, promised co-operation on the final form of the bill.
